Sounds good Amanda. I will send WHO request to transfer the invite from me to you. Let me know if this happens. Also we are pulling in Brianna on our international air quality/ environment and health agenda, so thank for adding her to our addressee list. She will be supporting pulling together the materials we will need to provide Jane Nishida.

Thanks again,

Ted

Hi Ted,

I think it would be worth sitting in, though I won't be able to participate for the whole meeting.

I am at an off-site meeting today and on CDO tomorrow. I was going to review the materials Maya sent tonight or first thing tomorrow and have some thoughts about some items I want to flag that are of OAQPS interest. I know Marianne has reached out to Kate regarding potential announcements re: international AQ cooperation. I think the monitoring and "filling the gaps" work fits nicely with the list of potential commitments and we could also discuss the megacities work. It would be useful to have a conversation between us as a USG AQ team (us and OES) and identify a few priority areas prior to drafting text.

My calendar is up-to-date for next week. Please feel free to send a meeting invite for a time that works for you and Marianne.

Amanda

Subject: RE: INVITATION: Coordination Meeting on the Health, Environment and Climate Change Coalition, 29 October 2018, World Meteorological Organization (WMO), Geneva, Switzerland

Hi Amanda,

Because of some trepidations here about this fora, created as an outcome from COPP 22 and because of the climate and health focus, I am not planning to accept the invite for this session, but would be happy to see about asking the organizers to transfer the invite to you, if you think it would be of interest to engage or at least sit in on it. Please let me know if I am interested and I will reply back to WHO about transferring the invite.

My primary interest in the event is focused heavily on air pollution and non-communicable diseases (NCDs) that is one of the areas getting attention. You may be aware that at the recent 3rd High Level Meeting on Prevention and Control of NCDs held at the UN General Assembly, and air pollution has now added as a 5th primary risk factor for NCDs. There is a WHO Global Action Plan on Prevention and Control of NCDs (2013-2020) that provides direction on key actions to address the other four risk factors (all “behavioral” risks incl. unhealthy diet, smoking, excessive alcohol consumption, and physical inactivity), but it does not include addressing air pollution as an NCD risk factor (Ranking #2 now, btw). Some good language came out of the 3rd High Level Meeting on NCDs Political Declaration regarding addressing air pollution as fifth main risk factor. Marianne will mainly be focused on staffing Jane for the Day 3 High Level segment.

Marianne, you and I should try to connect soon about the meeting. You should also get an email from Brianna Besch on key input EPA should be providing for the “Annotated Agenda” that HHS is producing, as Maya Levine from HHS requested. We also should talk about high level messaging for Jane Nishida’s remarks on Day 3, as well as pulling together something to succinctly capture our major contributions on international AQ cooperation. Does OAQPS have anything current and off the shelf that you guys could share with us? Let us know what your near term schedule looks like, and of course Kimber and Henry as most welcome to join...or they can just email input if that is easier.

Tic Toc, not a lot of time to pull all this together.

Regards,

Ted

Hi Ted,

I've not received any information about this event. I'm scheduled to speak briefly at a pre-conference workshop on the CCAC's reduced-form benefits calculator tool that EPA contributed to. It's at the same time, but also at WMO, so I could potentially participate in part of this session if that would be helpful.

I'm just back from Bangkok and catching up today, but my schedule is pretty open on Tuesday and Wednesday if you'd like to talk. Just let me know what would work for you.

Amanda

Hi Amanda,

I just received the invite below from WHO to attend the subject meeting on Oct. 29. I wanted to quickly check to see if you have also received an invite to this event. In briefly looking at the agenda we were curious as to how UNECE relevant work fits into this dialog. From our perspective we believe the fora may be useful in advancing the air pollution and NCDs agenda we have been working on, including in the connection with the recently concluded 3rd High Level Meeting on Prevention and Control of Noncommunicable Diseases at the UN General Assembly.

Are you around next week, so that we could connect on some of this. I am actually not working today, but was just periodically checking my email. I will be back in the Office Monday thru Thursday next week.

Have a nice weekend.

Ted

Subject: INVITATION: Coordination Meeting on the Health, Environment and Climate Change Coalition, 29 October 2018, World Meteorological Organization (WMO), Geneva, Switzerland

Dear Colleagues,

On behalf of WHO, UN Environment and WMO, I am pleased to invite you to participate in ***the Coordination Meeting on the Health, Environment and Climate Change Coalition (HECCC)***.

The Coalition was mandated by the Ministerial Declaration on Health, Environment and Climate Change in the margins of the UNFCCC COP22 climate conference, and was launched at the annual World Health Assembly in May 2018.

This working meeting will be hosted by WHO, UN Environment and WMO **at WMO headquarters, Geneva, Switzerland** and will take place **on Monday, 29 October 2018, from 1.30pm until 5 pm.**

The meeting will be held back to back with the First Global Conference on Air Pollution and Health in WHO Headquarters on 30 October - 1 November 2018.

Representatives from Member States, UN agencies and key actors active on health, environment and climate change will be also invited.

The meeting aims to share regional agendas and priorities as well as ongoing activities of UN agencies and key actors on health, environment and climate change, identify potential areas of collaboration and discuss how to make full use of the coalition to better coordinate activities on health, environment and climate change, identify synergies and possible joint products in order to better support Member States.

For further information, please find attached the concept note of the meeting.

In order to register for the meeting, kindly click on the below link and provide your details **by 23 October 2018.**

http://reg.unog.ch/e/Coordination_Meeting_HECCC

For any additional information, please contact me and cc: Ran Xie (ran.xie@un.org) and Carine Cruz Payan, (cruzca@who.int)

We look forward to your participation.

Kind Regards,

World Health Organization
